ALL-IN-ONE TOOTHBRUSH WITH TOOTHPASTE IN HANDLE...

...Use this toothbrush for quick dental hygiene.

BALTIMORE, MD—Are you one of the thousands of busy people always on the go from place to place? If so, you already know that often times it can be difficult to have dental supplies at the ready. The All-In-One is a specially designed toothbrush with toothpaste inside of the handle and provides a convenient means of brushing one's teeth when away from home. It looks like a standard toothbrush and is packaged within a durable case to protect from airborne germs and bacteria when not in use.

The All-In-One Toothbrush with Toothpaste in Handle was invented by Robert D. of Baltimore, MD. He said, "Good oral hygiene is vitally important to everyone, whether a student, a physician, a nurse, a lawyer, a businessman, salesperson or in another career field. Yet, having both the toothbrush and toothpaste available on an as needed basis can be difficult. The All-In-One Toothbrush with Toothpaste in Handle solves the problem. It can be tucked into a handbag, briefcase or even one's pocket for quick use. It is convenient and mess-free and allows the user to brush at virtually any time of day or place."
