DISPOSABLE UNDERWEAR

Disposable Underwear provides sanitary alternative...

Windsor Mill, MD— The invention of the Disposable Underwear offers a creative concept for a line of disposable undergarments for use during travel. This unique product would provide travelers with a sanitary alternative to transporting soiled undergarments.

The Disposable Underwear was invented by Quen A. of Windsor Mill, Maryland. She said, “My invention is designed as a convenience during traveling so the user doesn’t have to wash laundry during a trip, or pack dirty undergarments for future washing. The Disposable Underwear would be suitable for use not only by travelers, but for hospital patients and military personnel, as well.”
