ADJUSTABLE LENGTH CLIP ON TIE

Adjustable Length Clip On Tie

North Hills, CA— The invention of the Adjustable Length Clip On Tie offers a creative concept for a line of specially designed clip on neck ties. Fully adjustable, these ties would provide a practical new enhancement to the standard clip on tie design.

The Adjustable Length Clip On Tie was invented by Stephen B. of North Hills, California. He said, “My invention is designed to make wearing a tie a much more user friendly fashion. Particularly well suited for children, the Adjustable Length Clip On Tie would make it possible for little ones to take pride in dressing themselves quickly and completely, right down to their beautifully crafted neck tie!”
