## **TAYLOR KRISTINA HORNE BED**

Taylor Kristina Horne Bed - TKH Bed

Los Angeles, CA— The invention of the Taylor Kristina Horne Bed – TKH Bed offers a creative concept for a line of infant cribs which feature storage drawers and a closet. These cribs are designed to provide an efficient means of maximizing storage in an infant nursery, while ensuring comfortable and secure bedding for the child.

The Taylor Kristina Horne Bed – TKH Bed was invented by Deleshia H. of Los Angeles, California. She said, “My invention is designed to provide the maximum amount of storage in a minimal space. For parents who are frustrated by trying to fit a full size crib, dresser, changing table, and so forth into a small room, the Taylor Kristina Horne Bed – TKH Bed solves the problem, by maximizing the space and storage in baby’s nursery.”
