HANDS FREE LEASH KIT

Hands Free Leash Kit provides practicality and convenience with safety in mind...

This unique leash features an integrated clip fastener that allows the user to secure the leash to a pocket or waistband. It's like having an extra hand or two on your walk. In addition to the hands-free mechanism, the leash also features an easy to access can of pepper spray, a key ring, flashlight and a dispenser for disposable pet waste pickup bags. There is an accordion style Expandable Pouch to discreetly carry the pet's waste, prior to disposal. Out of sight, out of mind – the walk goes on. What more can a well prepared dog walker ask for? It makes multi-tasking on your walk a breeze.

Dog owners know the importance of safety when taking man's best friend for a stroll. Not only does the pet owner want a leash that is versatile and sturdy, but being easy to handle is also an important consideration. The invention of the Hands Free Leash Kit not only meets all logical requirements, but certainly brings to the market a leash that is designed with the user's convenience in mind. It offers the perfect leash for use with all dogs.

This revolutionary product was invented by Kenny A. Johnston of Riverside, California. About his unique and versatile concept, Mr. Johnston states, "My invention would be ideal for use with virtually any size dog in any situation." Whether strolling through the neighborhood, pet park or walking trail, the Hands Free Leash Kit would offer the owner any items that might be needed. From a pet waste bag to a place to secure car and house keys, the Hands Free Leash Kit is sure to win rave reviews from responsible dog owners! This will be the new convenient way of walking our pets.
