## **MAKE-UP BRUSH CLEANSING SYSTEM**

A well designed and convenient product...

Millstone Township, NJ—Concerned about the cleanliness of your makeup brushes, especially when using them day after day? Worry no more! The invention of the Make-Up Brush Cleansing System is the answer to keeping make up brushes clean and sanitary. Designed as a two piece receptacle filled with a mild cleansing solution, this easy to use device makes it possible to quickly and easily clean the brushes, reducing the spread of germs and bacteria, while also extending the life of expensive makeup tools.

The Make-Up Brush Cleansing System is the clever invention of Denise Yuhas of Millstone Township, New Jersey. About her revolutionary concept, Ms. Yuhas says, “My invention is designed to provide women with a simple to use method of ensuring cosmetic brushes are always clean, sanitary, and safe. The Make-Up Brush Cleansing System would also be ideal for use by professional makeup artists and salon personnel, eliminating the fear of spreading germs and bacteria among clients.”
