## **SUGAR/CREAMER STRAWS**

Sugar/Creamer Straws are innovative and user friendly...

Here is a terrific new concept that is sure to be enjoyed by coffee and tea drinkers everywhere! The invention of the Sugar/Creamer Straws presents an innovative and easy way to add sugar, sweetener, or cream to a favorite beverage with a product. The Sugar/Creamer Straws would be ideal for home use, and outstanding in a restaurant or catering venue! With a pre-measured amount of sugar, sweetener, or creamer cleverly concentrated into a convenient straw, users would simply open the straw at the perforated line, pour the condiment into their beverage, and use the straw as a stirrer!

The Sugar/Creamer Straws are designed to provide an easy and expedient alternative to traditional beverage enhancing methods. According to the inventor, the Sugar/Creamer Straws are a three in one product, taking less space for storage, and eliminating the need to use spoons to dip sugar or pour cream, making perfect preparation of a favorite drink much quicker and less messy.
