CONVERTIBLE INTERIOR PROTECTOR

Convertible Interior Protector protects upholstery and interior...

Morgantown, PA—Convertible owners are a special breed. Not only do they appreciate the fun of owning a unique car, they also really appreciate the car, and pay special attention to maintaining their vehicle. For convertible owners, the Convertible Interior Protector is sure to be a must have, and one that will add years to the life, and look, of their prized car. The Convertible Interior Protector is designed as a convenient, temporary cover to be used with convertibles when the top is down, and the car is parked. This unique product would protect the vehicle's interior and upholstery from airborne dirt and debris, bird droppings, UV damage from sunlight, and unexpected rain showers.

The Convertible Interior Protector was invented by Michelle Wade of Morgantown, Pennsylvania, who says this about her product, "My invention would provide convertible owners with an easy to use, yet effective method for protecting their car's interior. Taking only moments to install, and seconds to deploy, the Convertible Interior Protector would eliminate frustration and worry, providing peace of mind when leaving the vehicle parked with the top down. I see my product working not only for convertibles, but potentially as a boat interior protector as well!"
