WIPES CLUTCH

WIPES CLUTCH designed with convenience in mind...

Encino, Los Angeles County, CA— The invention of the Wipes Clutch offers a creative concept for a line of stylish carrying cases that are configured specifically for storing and easily accessing baby wipes. The Wipes Clutch is designed to provide women and men with an attractive alternative to traditional plastic wipe holders.

The Wipes Clutch was invented by Sophia V. of Encino, California. She said, “My invention makes it possible to keep baby wipes handy in a stylish storage accessory. The smaller size is perfect for makeup remover cloths or ‘flushables’. Whether using wipes for baby needs or simply for personal use, the Wipes Clutch provides a container that is perfect for storing wipes in a glove box, a purse, a desk, or anywhere it is convenient to have wipes available. Designed to be produced in a variety of colors and styles, there would always be a design that is perfect for the most discriminating consumer!”
