## **BARIATRIC SHOWER LINER**

Bariatric Shower Liner provides safety and convenience...

Kresgeville, PA— The invention of the Bariatric Shower Liner offers a creative concept for a shower curtain that is designed especially for use with a bariatric shower chair. This innovative design accommodates the chair configuration, preventing water from escaping, and allowing consumers with limited mobility a safe and simple means of showering. The Bariatric Shower Liner creates a square, panel-like barrier around the chair, ensuring safe entrance and exit from the shower area.

The Bariatric Shower Liner was invented by Francis I. of Kresgeville, Pennsylvania. He said, “My invention is designed to provide those who suffer limited mobility, as well as their caregivers, with a practical means of maintaining dry flooring when utilizing a bariatric shower chair. Easily installed, the Bariatric Shower Liner could prove an invaluable commodity to any household or facility with persons who suffer limited mobility.”
