THE ALUMINUM FOIL PLATE ...

... holds and seals food on takeout plate or bowl.

PHILADELPHIA, PA—The Aluminum Foil Plate is a product line of plates and bowls that come equipped with their own aluminum foil cover. The heavy paper plate or bowl is pre-fitted with self-sealing aluminum foil covers that allows the user to simply peel back the foil cover and place the desired foodstuffs onto the plate or into the bowl and then reseal the dish with the cover. The items are packaged and sold in multi-unit packs of 25, 50, and 100 units for household use and in larger quantities for the food service industry.

The Aluminum Foil Plate was invented by Listwell D. of Philadelphia, PA. He said, “This is a product line of single use polymeric foam picnic plates and bowls all of which come with its own foil cover. Plates or bowls used at picnics or other outdoor events are economical and can be recycled after use. They are perfect for takeout from restaurants too, no accidental spills on the way home! Food vendors will find their patrons appreciate this new type of plate and
