## **PASS CATCH SHOOT**

Pass Catch Shoot - the ultimate basketball training aid!

Mesa, AZ— The invention of the Pass Catch Shoot offers a creative concept for an outstanding basketball training aid, designed to provide players, particularly young, beginning players, with a simple and effective means of improving and perfecting their shooting technique when confronted with a block. The Pass Catch Shoot design is lightweight and portable, making it possible to use the product anywhere, at any time.

The Pass Catch Shoot was invented by Robert J. of Mesa, Arizona, who says, “My invention was developed with working parents and single parents in mind. Realizing these parents may not have a great deal of time to spend with their children practicing basketball skills, I created the Pass Catch Shoot as a convenient and easy to use practice aid. As many children aren’t able to afford basketball camps, the Pass Catch Shoot can bring the practice opportunities found at a camp to them, indoors and outdoors, year round.”
