DEC O FRAMES

Dec O Frames makes decorating quick and easy...

Portage, IN— The invention of the Dec O Frames offers a creative concept for a set of adjustable frames or fixtures for hanging holiday decorations. This unique product makes it possible to hang lights, garlands, and other decorative materials from and around windows, doors, roofs, and gutters. The Dec O Frames accommodates decorations easily and securely, making interior and exterior holiday decorating easier, safer, faster, and less expensive.

The Dec O Frames were invented by Karen W. of Portage, Indiana. She said, “My invention is designed to put the fun and joy in decorating for the holidays! By using the Dec O Frames, consumers would be able to quickly and safely install strings of lights, garlands, and any other decorating materials. Quickly assembled and installed, the frames would provide the perfect base for festive decorations and displays and then easily removed and stored until the next holiday season.”
