ROUND THE CLOCK BASEBALL CAP

Round the Clock Baseball Cap is unique and stylish!

Crofton, MD— The invention of the Round the Clock Baseball Cap offers a creative concept for a line of baseball caps that feature bills sewn on in sections, resembling the rotation of a clock face. The Round the Clock Baseball Cap is designed to provide consumers with an affordable and stylish cap, with the added bonus of disguising the adjuster straps on the caps.

The Round the Clock Baseball Cap was invented by Scott M. of Crofton, Maryland. He said, “My invention is designed to provide adults and young people with a creative outlet through fashion. The Round the Clock Baseball Cap would eliminate the need to purchase a wardrobe of varied hats, providing different headgear for every day, with only a few components. It’s an invaluable way to quickly and simply add variety!”
